

COTTESLOE TENNIS CLUB

RESTRICTED ACCESS TO CLUB FACILITIES!

Dear Members,

From Sunday evening 26th June until Saturday evening 2nd July there will be restricted access to the courts and club rooms while the eastern veranda is replaced with a new exposed aggregate concrete slab.

The following restrictions will apply during the period noted above.

- The main club entrance from Napier St will be blocked off and all club members and non-members will be required to enter the club via the double gates 35 metres west of the main entrance, off the Napier St car park, then across hard court 1 to the stairs leading to the western side of the club rooms.
- Please follow the directional signs and barriers that will be erected to guide all personnel to the western side of the club rooms and away from the construction area on the eastern side of the club rooms.
- A section of the Napier St car park directly outside the main club entry will be restricted from use until concrete pouring activities are completed by Thursday 30th June.
- Please do not enter the restricted areas inside the club grounds or in the car park as there will be construction machinery moving between the eastern veranda area and the Napier St car park during the restricted access period.
- Apart from hard court 1 all other courts will be available to players. Grass courts can only be accessed from the northern end of the club rooms as the eastern side of the club rooms will be restricted while construction works are proceeding on the eastern veranda area.
- Restricted access will be provided to the coaches' office on the south end of club rooms, please stay inside the barriers and follow the directional signs to the coaches' office.
- There will be 2 doors left open to access the club rooms from the western side. Members are requested "not" to close the access doors on the western side as they cannot be opened again from the outside. A club member will close the doors after 10.00 pm each night and will re-open the doors at 7.00 am the next morning.
- Members and players are requested to bring their own water filled bottles as there will be no water fountains available on the eastern side of the club rooms until the works are completed.
- The grassed area in front of the eastern veranda will be cordoned off and will be a restricted area.
- Toilets, change rooms, kitchen and bar will be accessible from the western side of the club rooms during the restricted access period
- The court captains arranging sets will have access to the captain's room from inside the club rooms, however players will have to view the sets on a temporary white board to be set up inside the club rooms during the restricted access period.

- Non-members wishing to pay for court hire will not be able to access the payment slots on the eastern side of the club rooms and will be permitted to play for free during the restricted access period.
- Parents of young children attending coaching classes are asked to closely supervise their movement around the construction works and prevent them entering any of the restricted areas.

The proposed construction activities are weather dependent. It may be necessary to change the restricted access period on short notice if there is any prospect of rain during the period from the 26th June to the 1st July. If the dates change another notice will be sent out to all members.

Regards,

Derry Walker

Director House and Grounds
